Summary	Existing law requires the state to achieve a 20% reduction in urban per capita water use in California by December 31, 2020. Existing law requires agricultural water suppliers to prepare and adopt agricultural water management plans with specified components on or before December 31, 2012, and to update those plans on or before December 31, 2015, and on or before December 31 every 5 years thereafter. Existing law sets forth various findings and declarations related to water conservation. This bill would state the intent of the Legislature to enact legislation necessary to help make water conservation a California way of life. An act relating to water.

Summary	Existing law, the California Safe Drinking Water Act, provides for the operation of public water systems and imposes on the State Water Resources Control Board various responsibilities and duties. The act authorizes the state board to order consolidation with a receiving water system where a public water system or a state small water system, serving a disadvantaged community, as defined, consistently fails to provide an adequate supply of safe drinking water. The act, if consolidation is either not appropriate or not technically and economically feasible, authorizes the state board to contract with an administrator to provide administrative and managerial services to designated public water systems and to order the designated public water system to accept administrative and managerial services, as specified. This bill would create the Small System Water Authority Act of 2018 and state legislative findings and declarations relating to authorizing the creation of small system water authorities that will have powers to absorb, improve, and competently operate noncompliant public water systems. The bill would define various terms and require a change in organization to be carried out as set forth in the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000. The bill would state the intent of the Legislature to enact legislation to protect public health that would require the board to provide notice to a water agency that is chronically providing contaminated drinking water, require the agency to develop a plan, as specified, and would subject to a merger with other agencies serving contaminated water an agency that is not able to develop a plan to correct the serving of contaminated water, the merger of which would create a small system water authority. The bill would state the intent of the Legislature to enact legislation that would subject a small system water authority to oversight by the appropriate local agency formation commission and the board's Division of Drinking Water, and that would require the Treasurer to create and submit to the Legislature an oversight report. This bill contains other existing laws. An act to add Division 23 (commencing with Section 78000) to the Water Code, relating to small system water authorities.

Summary	<p>The Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 provides the exclusive authority and procedure for the initiation, conduct, and completion of changes of organization and reorganization for special districts, as specified. The California Public Records Act requires a local agency to make public records available for inspection and allows a local agency to comply by posting the record on its Internet Web site and directing a member of the public to the Web site, as specified.</p> <p>This bill would, beginning on January 1, 2020, require every independent special district to maintain an Internet Web site that clearly lists contact information for the special district, except as provided. Because this bill would require local agencies to provide a new service, the bill would impose a state-mandated local program.</p> <p>The California Constitution requires local agencies, for the purpose of ensuring public access to the meetings of public bodies and the writings of public officials and agencies, to comply with a statutory enactment that amends or enacts laws relating to public records or open meetings and contains findings demonstrating that the enactment furthers the constitutional requirements relating to this purpose. This bill would make legislative findings to that effect.</p> <p>The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement. This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.</p> <p>With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.</p>

Summary	<p>(1) Existing law requires the state to achieve a 20% reduction in urban per capita water use in California by December 31, 2020. Existing law requires each urban retail water supplier to develop urban water use targets and an interim urban water use target, as specified. This bill would require the State Water Resources Control Board, in coordination with the Department of Water Resources, to adopt long-term standards for the efficient use of water, as provided, and performance measures for commercial, industrial, and institutional water use on or before June 30, 2021. The bill would require the department, in coordination with the board, to conduct necessary studies and investigations and make recommendations, no later than October 1, 2020, for purposes of these standards and performance measures. The bill, until January 1, 2025, would establish 55 gallons per capita daily as the standard for indoor residential water use, beginning January 1, 2025, would establish 52.5 gallons per capita daily as the standard for indoor residential water use, and beginning January 1, 2030, would establish 50 gallons per capita daily as the standard for indoor residential water use. The bill would require the department, in coordination with the board, to conduct necessary studies and investigations to jointly recommend to the Legislature a standard for indoor residential water use that more appropriately reflects best practices. The bill would impose civil liability for a violation of an order or regulation issued pursuant to these provisions, as specified. This bill contains other related provisions and other existing laws.</p> <p>An act to amend Sections 531.10, 1120, 10608.12, 10608.20, 10608.48, 10801, 10802, 10814, 10817, 10820, 10825, 10826, 10843, 10845, and 10910 of, to add Sections 1846.5 and 10826.2 to, and to add Chapter 9 (commencing with Section 10609) and Chapter 10 (commencing with Section 10609.40) to Part 2.55 of Division 6 of, the Water Code, relating to water.</p>

Summary	<p>(1) Existing law requires the state to achieve a 20% reduction in urban per capita water use in California by December 31, 2020. Existing law requires each urban retail water supplier to develop urban water use targets and an interim urban water use target, as specified. Assembly Bill 1668 of the 2017-18 Regular Session, if enacted, would require the State Water Resources Control Board, in coordination with the Department of Water Resources, to adopt long-term standards for the efficient use of water and would establish specified standards for per capita daily indoor residential water use. The bill would require an urban retail water supplier to calculate an urban water use objective no later than July 1, 2022, and by July 1 every year thereafter, and its actual urban water use by those same dates. The bill would require an urban retail water supplier to submit a report to the department for these purposes by those dates. The bill would authorize the board to issue information orders, written notices, and conservation orders to an urban retail water supplier that does not meet its urban water use objective, as specified. This bill contains other related provisions and other existing laws.</p> <p>An act to amend Sections 350, 377, 1058.5, 1120, 10608.12, 10608.20, 10610.2, 10610.4, 10620, 10621, 10630, 10631, 10631.2, 10635, 10640, 10641, 10642, 10644, 10645, 10650, 10651, 10653, 10654, and 10656 of, to amend, renumber, and add Section 10612 of, to add Sections 10608.35, 10609.20, 10609.22, 10609.24, 10609.26, 10609.28, 10609.30, 10609.32, 10609.34, 10609.36, 10617.5, 10618,</p>

Summary	<p>(1) Existing law, the California Safe Drinking Water Act, requires the State Water Resources Control Board to administer provisions relating to the regulation of drinking water to protect public health. Existing law declares it to be the established policy of the state that every human being has the right to safe, clean, affordable, and accessible water adequate for human consumption, cooking, and sanitary purposes. This bill would establish the Safe and Affordable Drinking Water Fund in the State Treasury and would provide that moneys in the fund are continuously appropriated to the state board. The bill would require the board to administer the fund to secure access to safe drinking water for all Californians, while also ensuring the long-term sustainability of drinking water service and infrastructure. The bill would authorize the state board to provide for the deposit into the fund of federal contributions, voluntary contributions, gifts, grants, bequests, and settlements from parties responsible for contamination of drinking water supplies. The bill would require the state board to expend moneys in the fund for grants, loans, contracts, or services to assist eligible applicants with projects relating to the provision of safe and affordable drinking water consistent with a fund implementation plan adopted annually by the state board, as prescribed. The bill would require the state board annually to prepare and make available a report of expenditures of the fund and to adopt annually, after a public hearing, an assessment of funding need that estimates the anticipated funding needed for the next fiscal year to achieve the purposes of the fund. The bill would require, by January 1, 2019, the state board, in consultation with local health officers and other relevant stakeholders, to make available a map of aquifers that are used or likely to be used as a source of drinking water that are at high risk of containing contaminants. For purposes of the map, the bill would require local health officers and other relevant local agencies to provide all results of, and data associated with, water quality testing performed by certified laboratories to the board, as specified. By imposing additional duties on local health officers and local agencies, the bill would impose a state-mandated local program. By creating a new continuously appropriated fund, this bill would make an appropriation. This bill contains other related provisions and other existing laws.</p> <p>An act to add Article 6.5 (commencing with Section 14615) to Chapter 5 of Division 7 of, to add Article 14.5 (commencing with Section 62215) to Chapter 2 of Part 3 of Division 21 of, and to repeal Sections 14616 and 62216 of, the Food and Agricultural Code, to add Chapter 4.6 (commencing with Section 116765) to Part 12 of Division 104 of the Health and Safety Code, and to amend Section 13050 of, and to add Article 4.5 (commencing with Section 13278) to Chapter 4 of Division 7 of, the Water Code, relating to water, and making an appropriation therefor.</p>

	<p>Under existing law, programs have been established pursuant to bond acts for, among other things, the development and enhancement of state and local parks and recreational facilities. This bill would enact the California Clean Water, Climate, Coastal Protection, and Outdoor Access for All Act of 2018, which, if approved by the voters, would authorize the issuance of bonds in an amount of \$3,470,000,000 pursuant to the State General Obligation Bond Law to finance a clean water, climate, coastal protection, and outdoor access for all program. This bill contains other related provisions.</p> <p>An act to add Chapter 14 (commencing with Section 5880) to Division 5 of the Public Resources Code, relating to a clean water, climate, coastal protection, and outdoor access for all program, by providing the funds necessary therefor through an election for the issuance and sale of bonds of the State of California and for the handling and disposition of those funds, and declaring the urgency thereof, to take effect immediately.</p>

Summary	<p>Existing law authorizes a fee for recording and indexing every instrument, paper, or notice required or permitted by law to be recorded, not to exceed \$10 for the first page and \$3 for each additional page, to reimburse a county for the costs of specified services relating to recording those documents. Existing law authorizes various additional recording fees for specified purposes. This bill would authorize a property owner to request a refund based on hardship of a fee, proposed to be imposed by SB 2, if he or she files a claim with the county recorder, in the county in which the fee was collected, that certifies under penalty of perjury that he or she meets specified criteria related to household income and the fee was levied and collected as part of a transaction to a refinance of the property that was the subject of the recording. By authorizing county recorders to issue a refund of this fee, this bill would make an appropriation. The bill would require the county recorder to deduct any amount issued for a refund from the amount to be remitted to the Department of Housing and Community Development and to annually report to the department on the number of hardship refunds granted pursuant to these provisions. By imposing new duties on local government officials with respect to the collection of the recording fee, and by expanding the scope of the crime of perjury, this bill would impose a state-mandated local program. This bill contains other existing laws.</p> <p>An act to add Section 27388.2 to the Government Code, relating to document recording, and making an appropriation therefor.</p>

Summary	<p>The Cobey-Porter Saline Water Conversion Law required, by July 1, 2004, the Department of Water Resources to report to the Legislature on potential opportunities for the use of seawater and brackish water desalination in California. Existing law required the report to evaluate the impediments to the use of desalination technology and to examine what role, if any, the state should play in furthering the use of desalination in California. This bill would require the commission, as part of the commission's regulatory actions related to the proposed decommissioning of the Diablo Canyon nuclear powerplant and consistent with the goal to mitigate negative impacts to ratepayers, to cause a study to be conducted on the feasibility of repurposing the water desalination facility at the Diablo Canyon nuclear powerplant for purposes of desalinating water for local use. The bill would require the commission to contract with an independent 3rd party to carry out the study on its behalf and would require the study to be conducted using moneys from the Public Utilities Commission Utilities Reimbursement Account. This bill contains other existing laws.</p> <p>An act relating to water.</p>

Action Taken	STATUS: 2/15/2018 Enrolled and presented to Governor at 12:35 p.m.		
Summary	<p>Existing law requires the Department of Water Resources, from time to time, to make inspections of dams and reservoirs at state expense for the purpose of determining their safety. This bill would repeal those provisions and instead would require the department to inspect dams, reservoirs, and appurtenant structures once per fiscal year with the exception of low hazard potential dams which the bill would require to receive inspections at least every 2 fiscal years, as specified. The bill would require the owner of a dam to operate critical outlet and spillway control features on an annual basis and to demonstrate their full operability in the presence of the department every 3 years or as directed by the department. The bill would provide that the dam inspection reports are public records subject to the California Public Records Act and would authorize the department to withhold from public release sensitive data, images, or other information, as prescribed, if the department includes in the public release a statement of findings that the withheld information would disclose a dam's vulnerability or pose a security threat. The bill would require the Division of Safety of Dams, in consultation with independent, national dam safety and dam safety risk management organizations to, on or before January 1, 2019, and every 10 years thereafter, propose amendments to its dam safety inspection and reevaluation protocols to incorporate updated best practices, including risk management, to ensure public safety. The bill would require the department to provide on its Internet Web site the dam safety inspection and reevaluation protocols, notice of the Division of Safety of Dams' intent to update the protocols, a schedule for the update, and any updates to the protocols. The bill would require the department to report to the Governor and the Legislature on amendments developed pursuant to these provisions and to notify dam owners and the Legislature of the division's intent to update dam safety inspection and reevaluation protocols prior to amending the protocols. This bill contains other related provisions and other existing laws.</p> <p>An act to add Sections 6102.5 and 6103 to, and to repeal and add Section 6102 of, the Water Code, relating to water, and declaring the urgency thereof, to take effect immediately.</p>

Summary	Existing law, the Ojai Basin Groundwater Management Agency Act, establishes the Ojai Basin Groundwater Management Agency to carry out groundwater management activities within the boundaries of the agency. Under the act, the agency is governed by a board of directors consisting of 5 members that includes one director who is required to be a representative of the Southern California Water Company. This bill would delete the requirement that one director be a representative of the Southern California Water Company and instead would require one director to be chosen by the board, as prescribed, for a term of 3 years. The bill would eliminate other references to the Southern California Water Company within the act. An act to amend Sections 401, 403, and 901 of, and to add Section 401.5 to, the Ojai Basin Groundwater Management Agency Act, relating to water.

Summary	<p>Existing law, the California Fair Employment and Housing Act, prohibits an employer from taking steps that constitute harassment against an employee, including sexual harassment, as defined. The act also prohibits an employer from failing to take corrective action to remedy harassment in the workplace if the employer knows or should have known of the harassment. The act also prohibits an employer from failing to take all reasonable steps necessary to prevent discrimination and harassment from occurring. This bill would require an employer with 50 or more employees to maintain records of employee complaints of sexual harassment for 10 years from the date of filing. The bill would authorize the department to seek an order requiring an employer that violates the recordkeeping requirement to comply. This bill contains other existing laws.</p> <p>An act to add Section 12950.5 to the Government Code, relating to sexual harassment.</p>

Action Taken	STATUS: 2/5/2018 Referred to COMMITTEE on LOCAL GOVERNMENT.			
Summary	<p>Existing law, the Santa Clara Valley Water District Act, creates the Santa Clara Valley Water District and authorizes the district to provide for the conservation and management of flood, storm, and recycled waters, and other waters, for beneficial uses and to enhance natural resources in connection with carrying out the purposes of the district. The district act authorizes the district to impose special taxes at minimum rates according to land use category and size. The district act authorizes the district to provide an exemption from these taxes for residential parcels owned and occupied by one or more taxpayers who are at least 65 years of age, or who qualify as totally disabled, if the household income is less than an amount approved by the voters of the district. This bill would authorize the district to require a taxpayer seeking an exemption from these special taxes to verify his or her age, disability status, or household income, as prescribed. The bill would authorize the board of directors of the district to provide the exemption. This bill contains other related provisions and other existing laws.</p> <p>An act to amend Sections 7.9, 13.2, and 33 of the Santa Clara Valley Water District Act (Chapter 1405 of the Statutes of 1951), relating to the Santa Clara Valley Water District.</p>

Action Taken	STATUS: 2/8/2018 Referred to COMMITTEE on WATER, PARKS, and WILDLIFE.			
Summary	<p>Existing law, the Sustainable Groundwater Management Act, requires all groundwater basins designated as high- or medium priority basins by the Department of Water Resources that are designated as basins subject to critical conditions of overdraft to be managed under a groundwater sustainability plan or coordinated groundwater sustainability plans by January 31, 2020, and requires all other groundwater basins designated as high- or medium-priority basins to be managed under a groundwater sustainability plan or coordinated groundwater sustainability plans by January 31, 2022, except as specified. The act requires the boundaries of a basin to be as identified in a specified report of the Department of Water Resources, unless other basin boundaries are established, as prescribed. This bill would divide the San Luis Rey Valley Groundwater Basin into an upper and lower sub-basin, as prescribed, and would designate the sub-basins as medium priority until the department reassesses basin prioritization. The bill would require water beneath the surface of the ground within the Upper San Luis Rey Valley Groundwater Sub-basin to be included within the definition of groundwater for the purposes of the act by any groundwater sustainability agency developing or implementing a groundwater sustainability plan and would except from this requirement certain water beneath the surface of the ground extracted and used as authorized under an existing appropriative water right.</p> <p>An act to amend Section 10721 of, and to add Section 10722.5 to, the Water Code, relating to groundwater.</p>

Summary	<p>Existing law requires every public and private urban water supplier that directly or indirectly provides water for municipal purposes to prepare and adopt an urban water management plan and to update its plan once every 5 years on or before December 31 in years ending in 5 and zero, except as specified. Existing law also requires an agricultural water supplier to prepare and adopt an agricultural water management plan with specified components on or before December 31, 2012, and to update those plans on or before December 31, 2015, and on or before December 31 every 5 years thereafter. This bill would require the Department of Water Resources, no later than January 1, 2020, in consultation with the State Water Resources Control Board and other relevant state and local agencies and stakeholders, to use available data to identify small water suppliers and rural communities that may be at risk of drought and water shortage vulnerability and would require the department to notify counties and groundwater sustainability agencies of those suppliers or communities. The bill would require the department, in consultation with the board, to propose to the Governor and the Legislature, by January 1, 2020, recommendations and guidance relating to the development and implementation of countywide drought and water shortage contingency plans to address the planning needs of small water suppliers and rural communities, as provided.</p> <p>An act to add Chapter 10 (commencing with Section 10609.40) to Part 2.55 of Division 6 of the Water Code, relating to water.</p>

Summary	<p>(1) Existing law, the Integrated Regional Water Management Planning Act, authorizes a regional water management group to prepare and adopt an integrated regional water management plan with specified components relating to water supply and water quality. Existing law provides that an integrated regional water management plan is eligible for funding allocated specifically for implementation of integrated regional water management. Existing law requires a regional water management group, within 90 days of notice that a grant has been awarded, to provide the Department of Water Resources with a list of projects to be funded by the grant funds where the project proponent is a nonprofit organization or a disadvantaged community, or the project benefits a disadvantaged community. Existing law requires the department, within 60 days of receiving the project information, to provide advanced payment of 50% of the grant award for those projects that satisfy specified criteria, including that the grant award for the project is less than \$1,000,000 and requires the advanced funds to be handled as prescribed. Existing law repeals these advanced payment provisions on January 1, 2025. This bill would instead require the department to provide advanced payment for those projects of \$500,000 or 50% of the grant award, whichever is less. The bill would eliminate the requirement that the grant award for the project be less than \$1,000,000 to obtain advanced payment. The bill would eliminate the repeal of these advanced payment provisions. This bill contains other related provisions and other existing laws.</p> <p>An act to amend Sections 10551 and 13477.6 of, to add Section 79724.5 to, and to repeal Section 10552 of, the Water Code, relating to water.</p>

Existing law provides that an integrated regional water management plan is eligible for funding allocated specifically for implementation of integrated regional water management. The bill, until January 1, 2025, would require a project proponent, upon completion of the first one-half of a project receiving an above-described grant award, to provide a first one-half project accountability report to the department that reports the completion of objectives for the first one-half of the project and documents the expenditure and use of advanced grant funds. The bill would require the department to provide advanced payment of the remaining grant award within 60 days of receiving the report if the project meets certain criteria. The bill would authorize the department to withhold up to 10% of the remaining advanced grant award as retention proceeds that the department is required to release fully to the project proponent upon verification by the department of project completion. The bill would require a project proponent to submit a final project accountability report to the department upon completion of the project. Legislative Status Report

As of March 2018

Summary	Existing provisions of the California Constitution establish the Budget Stabilization Account in the General Fund and require the Controller, on or before October 1 of the 2015–16 fiscal year and each fiscal year thereafter, to transfer from the General Fund to the Budget Stabilization Account amounts that include a sum equal to 1.5% of the estimated amount of General Fund revenues for that fiscal year. This measure would amend the California Constitution to create the California Infrastructure Investment Fund in the State Treasury. The measure would require the Controller, beginning in the 2019–20 fiscal year, to transfer from the General Fund to the California Infrastructure Investment Fund in each fiscal year an amount equal to up to 2.5% of the estimated General Fund revenues for that fiscal year, as provided. The measure would require, for the 2019–20 fiscal year and each fiscal year thereafter, the amounts in the fund to be allocated, upon appropriation by the Legislature, for specified infrastructure investments, including the funding of deferred maintenance projects. A resolution to propose to the people of the State of California an amendment to the Constitution of the State, by adding Section 25 to Article XVI thereof, relating to state infrastructure.

Summary	<p>(1) The federal Clean Air Act regulates the discharge of air pollutants into the atmosphere. The federal Clean Water Act regulates the discharge of pollutants into water. The federal Safe Drinking Water Act establishes drinking water standards for drinking water systems. The federal Endangered Species Act of 1973 generally prohibits activities affecting threatened and endangered species listed pursuant to that act unless authorized by a permit from the United States Fish and Wildlife Service or the National Marine Fisheries Service, as appropriate. This bill would require specified agencies to take prescribed actions to maintain and enforce certain requirements and standards pertaining to air, water, and protected species. By imposing new duties on local agencies, this bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.</p> <p>An act to add and repeal Title 24 (commencing with Section 120000) of the Government Code, relating to state prerogative.</p>

Summary	<p>(1) Under existing law, the Public Utilities Commission (PUC) has regulatory authority over public utilities, including electrical corporations, while local publicly owned electric utilities, as defined, are under the direction of their governing boards. The California Renewables Portfolio Standard Program requires the PUC to establish a renewables portfolio standard requiring all retail sellers, as defined, to procure a minimum quantity of electricity products from eligible renewable energy resources, as defined, so that the total kilowatt hours of those products sold to their retail end-use customers achieve 25% of retail sales by December 31, 2016, 33% by December 31, 2020, 40% by December 31, 2024, 45% by December 31, 2027, and 50% by December 31, 2030. The program additionally requires each local publicly owned electric utility, as defined, to procure a minimum quantity of electricity products from eligible renewable energy resources to achieve the procurement requirements established by the program. The Legislature has found and declared that its intent in implementing the program is to attain, among other targets for sale of eligible renewable resources, the target of 50% of total retail sales of electricity by December 31, 2030. This bill would revise the above-described legislative findings and declarations to state that the goal of the program is to achieve that 50% renewable resources target by December 31, 2026, and to achieve a 60% target by</p>

Summary	<p>The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of, an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. This bill would establish a continuing education requirement for employees of public agencies who have primary responsibility to administer the act, as specified. Because this bill would require a public agency to ensure that this continuing education requirement is met, this bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.</p> <p>An act to add Section 21098.5 to the Public Resources Code, relating to environmental quality.</p>

Summary	<p>The Planning and Zoning Law authorizes a local agency to provide by ordinance for the creation of accessory dwelling units in single-family and multifamily residential zones and sets forth standards the ordinance is required to impose, including, among others, maximum unit size, parking, and height standards. Existing law authorizes a local agency, special district, or water corporation to require a new or separate utility connection between the accessory dwelling unit and the utility and authorizes a fee to be charged, except as specified. Existing law requires a local agency to submit an ordinance adopted for the creation of accessory dwelling units to the Department of Housing and Community Development and authorizes the department to review and comment on the ordinance. This bill would delete the requirement that the area be zoned to allow single-family or multifamily use. The bill would specify that if a local agency</p>

The bill would specify that an accessory dwelling unit shall not be considered to exceed the allowable floor-to-area lot ratio upon which the accessory dwelling unit is located and would prohibit a local agency from requiring off street parking spaces be replaced when a garage, carport, or covered parking structure is demolished or converted in conjunction with the construction of an accessory dwelling unit. The bill would delete provisions authorizing a local agency, special district, or water corporation to require an applicant to install a separate utility connection for the accessory dwelling unit and would state that an accessory dwelling unit shall not be considered a new residential use for purposes of calculating fees and shall not be subject to impact fees, connection fees, capacity charges, or any other fees levied by those entities. The bill would authorize the department, upon submission of an adopted ordinance for the creation of accessory dwelling units, to submit written findings to the local agency regarding whether the ordinance complies with statutory provisions. The bill would authorize the department to adopt guidelines to implement uniform standards or criteria to supplement or clarify the terms, references, or standards set forth in statute and would exempt the adoption of those guidelines from the Administrative Procedure Act. Summary	<p>Existing provisions of the California Constitution declare the policy that the water resources of the state be put to beneficial use to the fullest extent of which they are capable, that the waste or unreasonable use or unreasonable method of use of water be prevented, and that the conservation of these waters is to be exercised with a view to the reasonable and beneficial use of the waters in the interest of the people and for the public welfare. Existing law requires the state to achieve a 20% reduction in urban per capita water use in California by December 31, 2020. This bill would state the intent of the Legislature to enact legislation that would require the State Water Resources Control Board to recognize local water agency investment in water supply and will ensure that local agencies receive sufficient credit for these investments in meeting any water conservation or efficiency mandates.</p> <p>An act relating to water.</p>

Action Taken	STATUS: 2/8/2018 Referred to COMMITTEE on EDUCATION.		
Summary	<p>Existing law establishes the segments of postsecondary education in this state, including the University of California administered by the Regents of the University of California, the California State University administered by the Trustees of the California State University, the California Community Colleges administered by the Board of Governors of the California Community Colleges, and independent institutions of higher education. Existing provisions of the Ortiz-Pacheco-Poochigian-Vasconcellos Cal Grant Program set forth the requirements for status as a "qualifying institution" whose students are eligible, if as individuals they meet pertinent program requirements, to receive Cal Grant awards. Existing law provides for licensing and regulation of various professions in the healing arts, including physicians and surgeons, psychologists, marriage and family therapists, educational psychologists, clinical social workers, and licensed professional clinical counselors. This bill would require the Trustees of the California State University, the governing board of each community college district, and the governing body of each independent institution of high education that is a qualifying institution, and request the Regents of the University of California, to hire one full-time equivalent mental health counselor per 1,000 students at each of their respective campuses to the fullest extent consistent with state and federal law. The bill would define mental health counselor for purposes of this provision. The bill would require those institutions, on or before January 1, 2020, and every 3 years thereafter, to report to the Legislature how funding was spent, and the number of mental health counselors employed on each of its campuses, as specified. To the extent that these provisions would impose new duties on community college districts, it would constitute a state-mandated local program. Summary	<p>Existing law, the California Safe Drinking Water Act, requires the State Water Resources Control Board to administer provisions relating to the regulation of drinking water to protect public health. Existing law declares it to be the established policy of the state that every human being has the right to safe, clean, affordable, and accessible water adequate for human consumption, cooking, and sanitary purposes. This bill would require an urban and community water system, defined as a public water system that supplies water to more than 200 service connections, to have a written policy on residential service shutoff available in English, Spanish, or any other language spoken by at least 5% of the people residing in its service area. The bill would require the policy to include certain components and be available on the system's Internet Web site and be provided annually to customers in writing. The bill would make a violation of these provisions punishable by a civil penalty issued by the board or the commission, as appropriate, in an amount not to exceed \$500 for each day in which the violation occurs. The bill would eliminate existing notice and other requirements relating to the termination of residential service for commission-regulated urban and community water systems and instead would apply the provisions of this bill to those systems. This bill would prohibit an urban and community water system from shutting off residential service until a payment by a customer has been delinquent for at least 60 days. The bill would require an urban and community water system to contact the customer named on the account and provide the customer with the urban and community water system's policy on residential service shutoff no less than 3 business days before shutoff, as prescribed. The bill would prohibit an urban and community water system from shutting off residential service until the system notifies the local health department and the local health department assesses that a shutoff at the residence would not pose a grave threat to the health and safety of the residents, except as provided. By imposing new duties on local health departments, this bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.</p> <p>An act to add Chapter 6 (commencing with Section 116900) to Part 12 of Division 104 of the Health and Safety Code, and to amend Sections 777, 779, 779.1, 780, 10009, 10010, 10010.1, 12822, 12823, 12823.1, 16481, 16482, and 16482.1 of the Public Utilities Code, relating to water.</p>

Summary	<p>Existing law provides for the protection, enhancement, and restoration of rivers in this state. Existing law establishes the Santa Monica Mountains Conservancy and prescribes the membership, functions, and duties of the conservancy with regard to the acquisition, preservation, and improvement of real property within the Santa Monica Mountains zone, as defined. Existing law establishes within the conservancy the Upper Los Angeles River and Tributaries Working Group and requires, by March 1, 2019, the working group to develop, through watershed-based planning methods and community engagement, a revitalization plan for the Upper Los Angeles River, the tributaries of the Pacoima Wash, Tujunga Wash, and Verdugo Wash, and any additional tributary waterway that the working group determines to be necessary. Existing law requires the revitalization plan to address the unique and diverse needs of the Upper Los Angeles River, Pacoima Wash, Tujunga Wash, and Verdugo Wash, and the communities through which they pass, and to include watershed education programs. This bill would specify the Arroyo Seco Tributary as a waterway for the working group to include in the revitalization plan and watershed education programs.</p> <p>An act to amend Section 33220 of the Public Resources Code, relating to the Los Angeles River and tributaries.</p>

Legislative Status Report

As of March 2018

Summary	<p>Existing law declares it to be the established policy of the state that every human being has the right to safe, clean, affordable, and accessible water adequate for human consumption, cooking, and sanitary purposes. Existing law, the California Safe Drinking Water Act, provides for the operation of public water systems and imposes on the State Water Resources Control Board various responsibilities and duties. The act authorizes the state board to order consolidation with a receiving water system where a public water system or a state small water system, serving a disadvantaged community, as defined, consistently fails to provide an adequate supply of safe drinking water. This bill would also authorize the state board to set timeline and performance measures to facilitate completion of extension of service of drinking water. This bill contains other related provisions and other existing laws.</p> <p>An act to amend Sections 116680, 116681, and 116682 of, and to add Section 116683 to, the Health and Safety Code, relating to water.</p>

Legislative Status Report

As of March 2018

Action Taken	STATUS: 2/16/2017 Referred to COMMITTEE on RULES.
Summary	<p>The California Constitution requires that the water resources of the state be put to beneficial use to the fullest extent of which they are capable and that the waste or unreasonable use or unreasonable method of use of water be prevented. This measure would declare the intent of the Legislature to amend the California Constitution to provide a program that would ensure that affordable water is available to all Californians and to ensure that water conservation is given a permanent role in California's future.</p> <p>A resolution to propose to the people of the State of California an amendment to the Constitution of the State, by adding Article X C thereto, relating to water.</p>
